CAREER OBJECTIVE

Seeking a Java Developer role where I can apply my skills in Core Java, Spring Boot, and database management to build scalable applications and contribute to organizational growth.

TECHNICAL SKILLS

Programming Languages : Core Java, Advanced Java, Python, C
Frameworks : Spring, Spring Boot
Web Technologies : HTML, CSS, JavaScript
Databases : Oracle
Developer Tools : Eclipse, Git
Soft Skills : Problem-Solving, Team Leadership

EDUCATION

Degree	Institute	CGPA/Percentage	Year
B.Tech in Artificial Intelligence and Machine Learning	Chebrolu Engineering College	75%	2025
Intermediate	Sri Visakha Junior College	87%	2021
SSC	ZP High School, Peteru	95%	2019

PROJECT-1

Title : Chat Messenger Application in Java.
Domain : Networking / Client-Server Applications.
Duration : April 2025 to June 2025.
Technologies Used : Java, Swing, TCP/IP Socket, NetBeans Git/GitHub.

Description:

I developed a Java-based chat messenger that lets multiple users communicate in real time over a network. I used socket programming with a multithreaded server to handle clients and designed a simple Swing interface for sending and receiving messages.

PROJECT-2

Title	:	Pet Food Shop Website
Domain	:	Web Development / E-Commerce.
Duration	:	July 2025.
Technologies Used	:	HTML, CSS, JavaScript

Description:

I developed a simple e-commerce styled Pet Food Shop Website with sections like Home, Products, About, and Cart. I used HTML and CSS to design a responsive user interface and JavaScript to implement the cart system that dynamically updates items and calculates the total cost. The website showcases different pet food products with images, prices, and interactive 'Add to Cart' functionality.

INTERNSHIPS

- **Salesforce Intern (Nov 2023 – Dec 2023) Smart Intern (Remote)**
  - Assisted in Salesforce CRM customization, workflows, and data management.
  - Supported implementation of Sales Cloud and Service Cloud.

- **Deloitte Virtual Technology Internship (Forage)**
  - Completed a virtual simulation focused on real-world technology tasks including coding and development. Gained exposure to problem-solving in a professional consulting environment and strengthened technical and analytical skills.

- **ChatGPT / Generative AI Intern (Jul 2024 – Sep 2024)**
  International Institute of Digital Technologies, in association with Blackbuck Engineers and APSCHE
  -Gained hands-on experience with Generative AI and ChatGPT models.
  -Worked on implementing AI-based solutions for real-world problem statements.

- o **Cloud Computing Intern (Dec 2024 – Apr 2025) BIST Technologies Pvt. Ltd., Vijayawada**
  -Acquired knowledge of Cloud Computing fundamentals, virtualization, and distributed computing.
  -Learned to deploy, manage, and scale applications on cloud platforms.
  -Worked with concepts like IaaS, PaaS, SaaS, and cloud-based storage and security solutions.

CERTIFICATIONS

- Certified in Java Programming for Beginners.
- Certified in Java Course - Mastering the Fundamentals.
- Certified in OOPs in Java.
- Certified in Introduction to Front End Development Course.
- Certified in Joy of Computing using Python (NPTEL).
- Certified in Python3 Using Udemy.

PERSONAL SKILLS

Leadership, Quick learner, Self-motivated, Time punctuality, Good communication and presentation skills
